
ESG Considerations

Targeted Value ESG Funds

Last Update: March 14, 2025

FOR PROFESSIONAL USE ONLY. NOT FOR USE WITH RETAIL INVESTORS.

WHERE ISSUED BY DIMENSIONAL IRELAND LIMITED: Issued by Dimensional Ireland Limited (Dimensional Ireland), with registered office 3 Dublin Landings, North Wall Quay, Dublin 1, Ireland. Dimensional Ireland is regulated by the Central Bank of Ireland (Registration No. C185067). Directed only at professional clients within the meaning of Markets in Financial Instruments Directive (MiFID) (2014/65/EU).

WHERE ISSUED BY DIMENSIONAL FUND ADVISORS LTD: Issued by Dimensional Fund Advisors Ltd. (Dimensional UK), 20 Triton Street, Regent's Place, London, NW1 3BF. Company Number 02569601. Dimensional UK is authorised and regulated by the Financial Conduct Authority (FCA) - Firm Reference No. 150100. Directed only at professional clients as defined by the rules of the FCA.

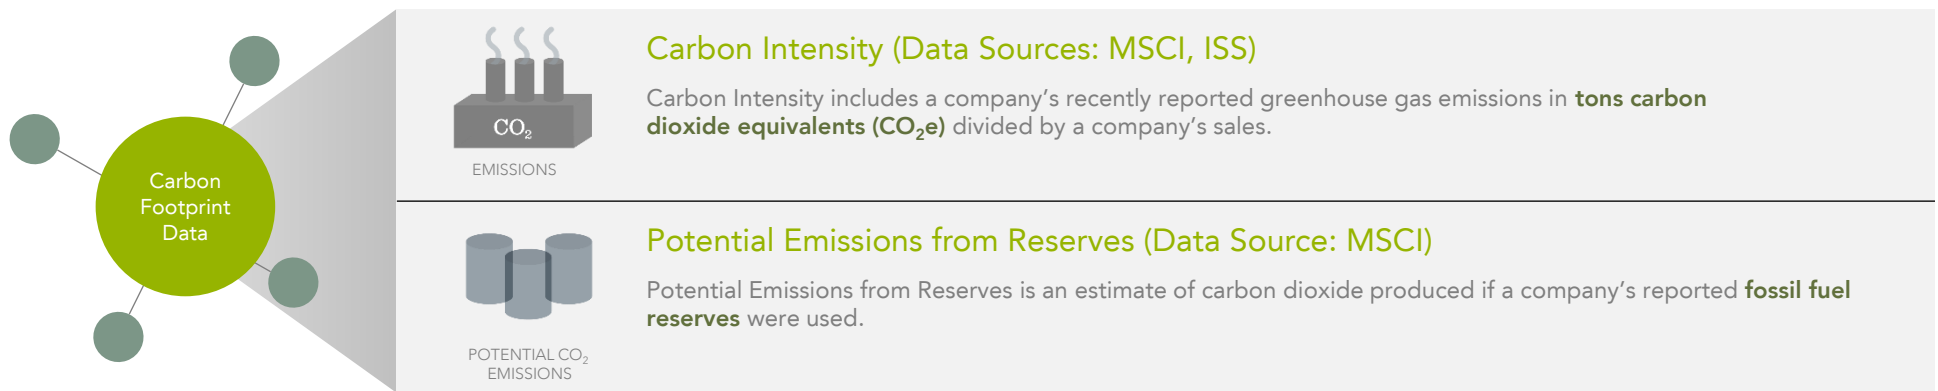

This is a marketing communication. Please refer to the prospectus of the UCITS, KID, and KIID before making any final investment decisions.

The information in this material is intended for the recipient's background information and use only. It is provided in good faith and without any warranty or representation as to accuracy or completeness. Information and opinions presented in this material have been obtained or derived from sources believed by Dimensional Ireland and Dimensional UK, as applicable (each an "Issuing Entity", as the context requires) to be reliable and the Issuing Entity has reasonable grounds to believe that all factual information herein is true as at the date of this document. It does not constitute investment advice, recommendation, or an offer of any services or products for sale and is not intended to provide a sufficient basis on which to make an investment decision. It is the responsibility of any persons wishing to make a purchase to inform themselves of and observe all applicable laws and regulations. Unauthorised reproduction or transmitting of this material is strictly prohibited. The Issuing Entity does not accept responsibility for loss arising from the use of the information contained herein.

Understanding Carbon Footprint Data

Evaluating company emissions by considering what's in the air and in the ground

Carbon Footprint Components:

Carbon Concepts at a Glance

What are carbon dioxide equivalents (CO₂e)?

CO₂e is a unit used to compare emissions of the seven greenhouse gases by converting each gas to an equivalent amount of CO₂ based on their global warming potential.¹

What is 1 Ton CO₂e?

Equivalent to emissions from **427** litres of gasoline consumed¹

Equivalent to carbon sequestered by **1.2** acres of US forests in one year¹

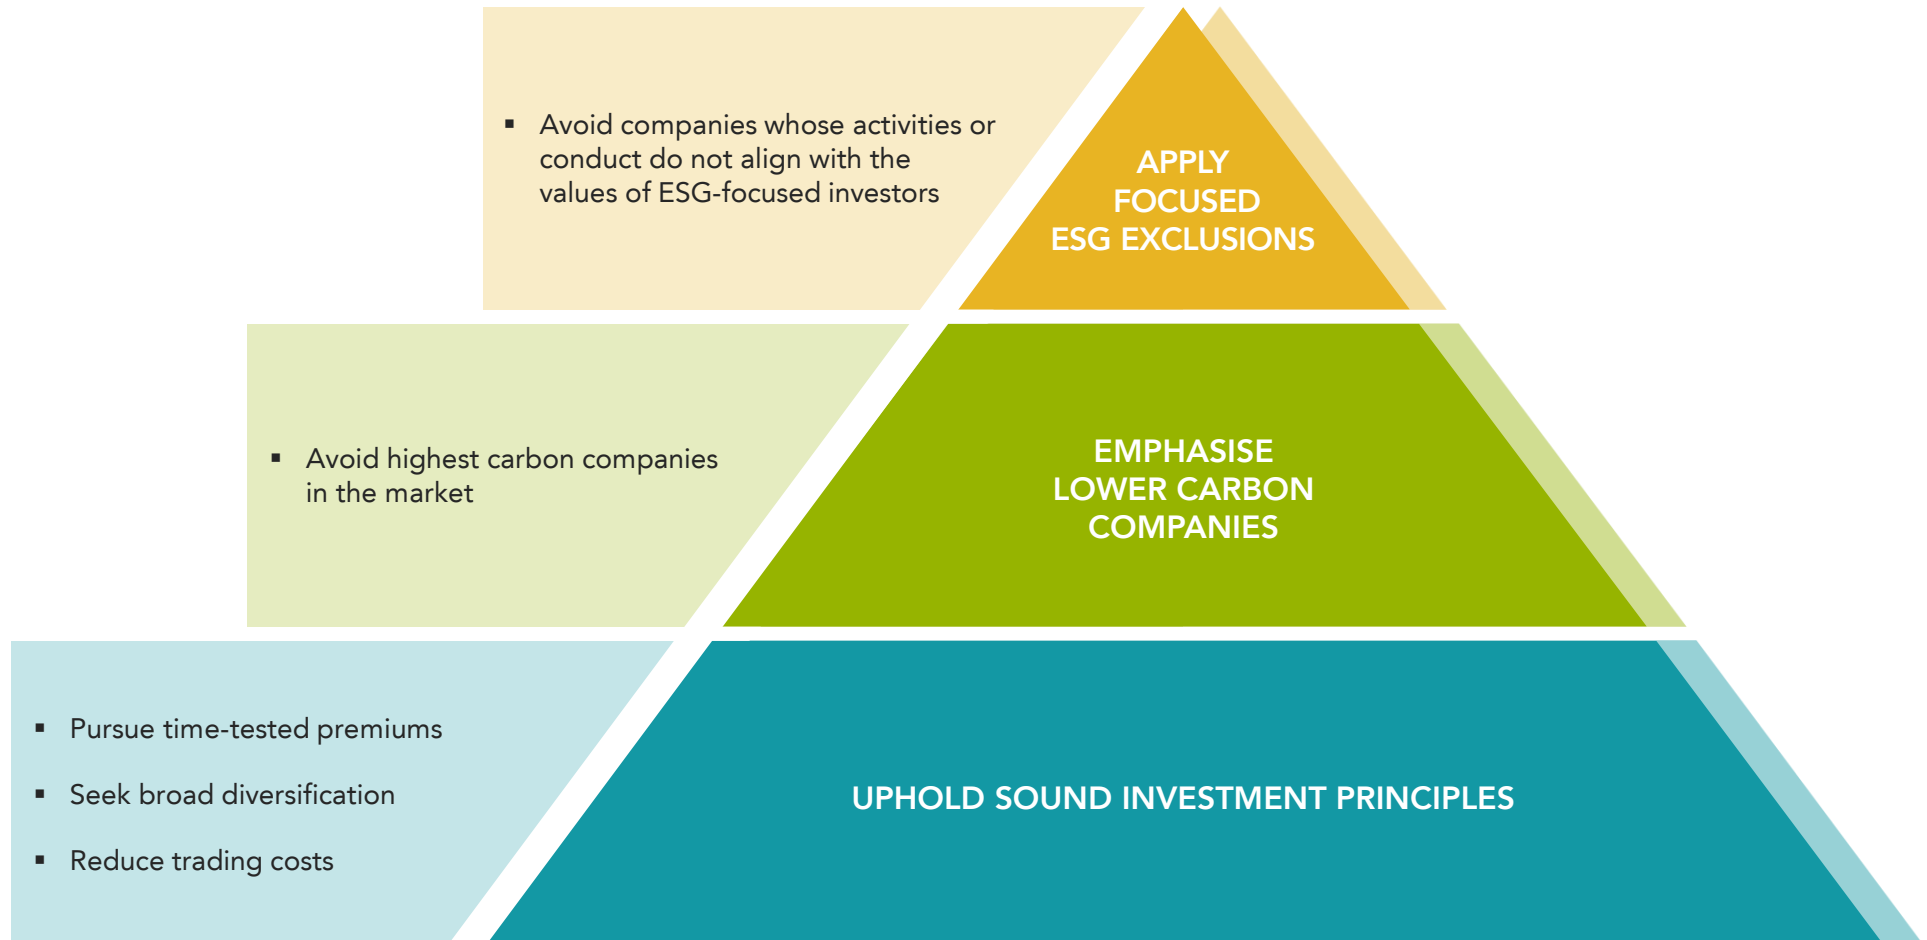

What are fossil fuel reserves?

Companies may have physical assets that include coal, oil, and natural gas, which can lead to high emissions in the future.²

1. Source: EPA.gov.
2. Source: MSCI.

Carbon Intensity represents a company's recently reported or estimated Scope 1 (direct) + Scope 2 (indirect) greenhouse gas emissions in carbon dioxide equivalents (CO₂e) normalised by sales in USD (metric tons CO₂e per USD million sales). Greenhouse gases included are carbon dioxide (CO₂), methane (CH₄), nitrous oxide (N₂O), hydrofluorocarbons (HFCs), perfluorocarbons (PFCs), sulphur hexafluoride (SF₆), and nitrogen trifluoride (NF₃). **Potential Emissions from Reserves** is a theoretical estimate calculated by MSCI of carbon dioxide produced if a company's reported reserves of oil, gas, and coal were converted to energy, given estimated carbon and energy densities of the respective reserves.

Dimensional's Approach to ESG Investing

Applying ESG Considerations

Targeted Value ESG Funds

UPHOLD SOUND INVESTMENT PRINCIPLES

Pursue time-tested premiums

- Remain focused on size, value and profitability among small cap value stocks

Seek broad diversification

- Retain high coverage across names while limiting sector overweights

Reduce trading costs

- Maintain low turnover through thoughtful portfolio design

EMPHASISE LOWER CARBON COMPANIES

Avoid highest carbon companies in the market

Exclude companies with highest carbon intensity and highest potential emissions from fossil fuel reserves

APPLY FOCUSED ESG EXCLUSIONS

Adverse business activities

- Environmental: coal, oil, gas, palm oil and factory farming
- Social: adult entertainment, alcohol, gambling, tobacco, private prisons, civilian firearms and controversial/nuclear weapons

Adverse business conduct¹

- E.g. environmental, child labour, human rights, corruption and fraud controversies

Profitability is measured as operating income before depreciation and amortisation minus interest expense scaled by book. **Higher carbon companies** represent companies with higher carbon intensities and/or potential emissions from reserves. **Carbon Intensity** represents a company's recently reported or estimated Scope 1 (direct) + Scope 2 (indirect) greenhouse gas emissions in carbon dioxide equivalents (CO₂e) normalised by sales in USD (metric tons CO₂e per USD million sales). Greenhouse gases included are carbon dioxide (CO₂), methane (CH₄), nitrous oxide (N₂O), hydrofluorocarbons (HFCs), perfluorocarbons (PFCs), sulphur hexafluoride (SF₆), and nitrogen trifluoride (NF₃). **Potential Emissions from Reserves** is a theoretical estimate calculated by MSCI of carbon dioxide produced if a company's reported reserves of oil, gas, and coal were converted to energy, given estimated carbon and energy densities of the respective reserves. See "Details on ESG Considerations" and "ESG Data Descriptions and Disclosures" for additional information.

1. Exclusion of companies identified as operating in a manner inconsistent with responsible business conduct standards, such as those defined by the UN Global Compact Principles and the OECD Guidelines for Multinational Enterprises, because of material involvement in severe controversies. As only a fraction of companies have historically been involved in such controversies, this exclusion may not materially impact the investable universe of a fund.

Targeted Value ESG Funds

EMPHASISE LOWER CARBON COMPANIES

Goal	Methodology	Policy	Measurement
Avoid highest carbon companies in the market	 <p>Excludes from purchase companies that are within at least the worst 5% of free-float market capitalisation when ranked by an emissions-based score relative to peers. The emissions-based score of each company is determined by its carbon intensity rank and potential emissions from reserves rank. The exclusion may be higher than 5% to ensure that the binding elements are attained.</p>	The fund reduces its weighted average carbon intensity exposure relative to the market ¹ by at least 50%.	The weighted average carbon intensity is measured by using the carbon intensity (tCO ₂ e/USD millions sales) of each company in the fund or in the market and calculating the weighted average by fund or market weight.
	 <p>Excludes from purchase companies that are within at least the worst 5% of free-float market capitalisation when ranked by an emissions-based score relative to peers. The emissions-based score of each company is determined by its carbon intensity rank and potential emissions from reserves rank. The exclusion may be higher than 5% to ensure that the binding elements are attained.</p>	The fund reduces its weighted average potential emissions from reserves exposure relative to the market by at least 75%.	The weighted average potential emissions from reserves are measured by using the total potential emissions from reserves (MtCO ₂) of each company in the fund or in the market and calculating the weighted average by fund or market weight.

The fund generally seeks to invest in direct holdings and a minimum of 90% of its investments will be aligned with the E/S characteristics promoted by the fund. See "Disclosures" to learn how to obtain the fund's Prospectus which includes complete information on the fund's ESG considerations. Additionally, please refer to the fund's Sustainability-Related Disclosures at www.dimensional.com/SFDR.

1. The market represents the fund's eligible market universe, which is a list of securities eligible for the fund prior to the application of the fund's investment strategy, weighted according to their market capitalisation. The list generally consists of a broad and diverse group of securities traded in approved countries as defined in the Prospectus of the fund.

Details on ESG Considerations

ESG Funds

APPLY FOCUSED ESG EXCLUSIONS¹

Type	Topic	Criteria
Adverse business activities: <i>Environmental</i>	Coal	Evidence of owning any proven and probable thermal or metallurgical coal reserves or any revenue from exploration, mining, extraction, distribution or refining of hard coal and lignite.
	Oil	10% or more revenue from the exploration, extraction, distribution or refining of oil fuels.
	Gas	50% or more revenue from the exploration, extraction, manufacturing or distribution of gaseous fuels.
	Fossil Fuel Power Generation	50% or more revenue from electricity generation with a greenhouse gas intensity of more than 100g CO ₂ e/kWh (fossil fuels and biomass).
	Palm Oil	10% or more revenue from palm oil farming and/or palm oil processing.
	Factory Farming	10% or more revenue from sectors related to factory farming.
Adverse business activities: <i>Social</i>	Adult Entertainment	10% or more revenue from the production, distribution or retailing of adult entertainment products.
	Alcohol	10% or more revenue from the production, distribution, retailing, licensing or supply of alcoholic beverages, key products and services.
	Gambling	10% or more revenue from the ownership or operation of gambling facilities, or from the support or services to the gambling industry.
	Tobacco	Any involvement in the cultivation and production of tobacco or 10% or more revenue from the distribution, retailing, licensing or supply of key tobacco products and services.
	Private Prisons	Ownership or any revenue from the operation of private prisons and/or immigrant detention facilities.
	Civilian Firearms	Any revenue from the production of handguns, pistols, shotguns, rifles, revolvers, and ammunition for civilian (nonmilitary) use.
	Controversial and Nuclear Weapons	Any involvement in the manufacture of cluster munitions or anti-personnel mines or their key components, chemical and biological weapons or depleted uranium ammunition and armour, or nuclear weapons or their key components.
Adverse business conduct	ESG Controversies	Material involvement in severe controversies related to the environment (e.g. land use and biodiversity, toxic spills and releases, operational waste or water management), society (e.g. child labour or human rights) or corporate governance (e.g. corruption or fraud).

1. Dimensional's ESG funds generally (a) avoid purchase and (b) divest from companies which, in our opinion, are involved in these activities and controversies. Indirect involvement, for example through ownership structures, may also lead to exclusion. Should existing holdings, compliant at the time of purchase, subsequently become involved, they will be divested within a reasonable period considering turnover, liquidity and associated trading costs. Exclusions are not applied to cash, derivatives or third-party fund holdings. If no relevant information can be obtained from either internal or external sources that would lead a company to be excluded from the fund, the company is deemed to be eligible for investment.

Dimensional UK is the Authorised Corporate Director of Dimensional Funds ICVC. The sub-funds are operated separately and the assets of each sub-fund are managed in accordance with the investment objective and policy applicable to that sub-fund.

Dimensional Funds ICVC (the "UK Funds"), Dimensional Funds plc and Dimensional Funds II plc (the "Irish Funds") (together the "Dimensional funds") are offered solely under the terms and conditions of the respective fund's current prospectus and applicable UCITS Key Investor Information Document (KIID) and applicable Packaged Retail and Insurance-based Investment Products (PRIIPs) - Key Information Document (KID). Consider the investment objectives, risks, and charges and expenses of the Dimensional funds carefully before investing. For this and other information about the Dimensional funds, please read the prospectus, KID and KIID carefully before investing. The latest version of the prospectus, applicable UCITS KIID (available in English) and applicable PRIIPs KID (available in English and the appropriate local language) for the UK Funds may be obtained at dimensional.com or by contacting the fund's administrator, or its investment manager at +44 (0)20 3033 3300. The latest version of the prospectus, applicable UCITS KIID (available in English) and applicable PRIIPs KID (available in English and the appropriate local language) for the Irish Funds may be obtained at www.dimensional.com or by contacting the fund's administrator at +353 1 242 5536, its distributor Dimensional Ireland Limited at +353 1 576 9750 or, if in the United Kingdom, its sub-distributor Dimensional Fund Advisors Ltd. at +44 (0)20 3033 3300.

In addition, a summary of investor rights is available at www.dimensional.com/ssr. The summary is available in English.

Dimensional Funds plc and Dimensional Funds II plc are currently notified for marketing into a number of EU member states under the UCITS Directive. Dimensional Funds plc and Dimensional Funds II plc can terminate such notifications for any Dimensional funds at any time using the process contained in Article 93a of the UCITS Directive.

Disclosures

RISKS

Investments involve risks. The investment return and principal value of an investment may fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original value. There is no guarantee strategies will be successful.

Performance data shown represents past performance and is not a guarantee of future results. Current performance may be higher or lower than the performance shown. Performance may increase or decrease as a result of currency fluctuations.

The principal risks of investing in the Dimensional funds may include one or more of the following: market risk, small companies risk, risk of concentrating in the real estate industry, foreign securities and currencies risk, liquidity risk, political risk, tax risk, settlement risk, risk associated with availability of market information, emerging markets risk, banking concentration risk, interest rate risk, risk of investing for inflation protection, fixed income risk and/or fund-of-funds risk. To more fully understand the risks related to an investment in the funds, investors should carefully read each fund's prospectus, KID, and KIID.

Fixed income securities are subject to increased loss of principal during periods of rising interest rates and may be subject to various other risks, including changes in credit quality, liquidity, prepayments, and other factors. Small cap securities are subject to greater volatility than those in other asset categories. Environmental and social screens may limit investment opportunities for the fund. International investing involves special risks such as currency fluctuation and political instability. Investing in emerging markets may accentuate these risks. Sector-specific investments can also increase investment risks.

ESG Data Description and Disclosures

Data Provider Disclosure

Certain information incorporated herein has been provided by Institutional Shareholder Services Inc. (“ISS”) and by MSCI ESG Research Inc. (“MSCI”). Although Dimensional Fund Advisors’ information providers, including without limitation, ISS and MSCI and their affiliates (the “Data Providers”), obtain information from sources they consider reliable, none of the Data Providers warrants or guarantees the originality, accuracy, and/or completeness of any data herein. None of the Data Providers makes any express or implied warranties of any kind, and the Data Providers hereby expressly disclaim all warranties of merchantability and fitness for a particular purpose, with respect to any data herein. None of the Data Providers shall have any liability for any errors or omissions in connection with any data herein. Further, without limiting any of the foregoing, in no event shall any of the Data Providers have any liability for any direct, indirect, special, punitive, consequential, or any other damages (including lost profits) even if notified of the possibility of such damages.

Data Sources and Limitations

The following data sources are used to apply the ESG considerations of the Dimensional ESG Funds:

- Data for carbon intensity are sourced from external vendors, such as MSCI and ISS.
- Data for potential emissions from reserves are primarily sourced from external vendors, such as MSCI, and may be supplemented with internal data sets.
- Data for sovereign-level greenhouse gas emissions per GDP are collected from external sources, such as Climate Watch and the World Bank.
- Data for business activities are primarily sourced from external vendors, such as MSCI and ISS, and may be supplemented with internal data sets.
- Data for ESG controversies are primarily sourced from external vendors, such as MSCI and ISS, and may be supplemented with internal data sets and/or information from publicly available assessments.

The environmental and social data landscape is still maturing. A lack of company reported data remains one of the primary limitations. For example, the coverage of reported greenhouse gas emissions tends to be lower for small and emerging market companies, although the trend of available reported data in these markets continues to improve. Another limitation is the inconsistency of data and methodologies across vendors and companies. Dimensional avoids relying on third-party ESG ratings, which are often subjective, and instead focuses on more objective and consistently reported metrics. We take commercially reasonable efforts to collect external data sets and develop internal data sets that allow Dimensional ESG Funds to apply their ESG considerations.

In equities, external vendors, for example, provide reported or modelled carbon intensity data for nearly all the companies eligible for Dimensional ESG Funds when measured by free-float market capitalisation. Companies where carbon intensity data is not available are assigned a sector average value. Companies where potential emissions from reserves data is not available, either from external or internal data sets, are assigned zero emissions.

In fixed income, external vendors, for example, provide reported or modelled carbon intensity data for nearly all the companies eligible for Dimensional ESG Funds when measured by market value of outstanding bonds. Corporate issuers where carbon intensity data is not available are assigned a sector average value. Agency / supranational issuers where carbon intensity data is not available are not considered in the calculation as no reliable estimate can be assigned (information on data availability for agencies and supranationals will be disclosed in the Annual Report of the Dimensional ESG Funds). Issuers where potential emissions from reserves data is not available, either from external or internal data sets, are assigned zero emissions. Treasury / sovereign / local authority issuers where sovereign-level greenhouse gas emissions per GDP data is not available are included with the highest emitters.

EU Sustainable Finance Disclosure Regulation

The Emerging Markets Core Equity Lower Carbon ESG Screened Fund, Global Core Equity Lower Carbon ESG Screened Fund, Global Core Fixed Income Lower Carbon ESG Screened Fund, Global Short Fixed Income Lower Carbon ESG Screened Fund, Global High Profitability Lower Carbon ESG Screened Fund, Global Targeted Value Lower Carbon ESG Screened Fund, and World Equity Lower Carbon ESG Screened Fund (the “ESG Funds”) promote sustainability in accordance with Article 8 of Regulation (EU 2019/2088) on sustainability related disclosures in the financial services sector (SFDR). The ESG Funds do not have sustainability investment as their objective but as part of the ESG Funds’ investment policy, the Investment Manager does take into account the sustainability impact associated with securities when making investment decisions for the ESG Funds.

While the ESG Funds promote sustainability and the Investment Manager takes into account sustainability impact considerations, the ESG Funds’ investments are not evaluated against the EU criteria for environmentally sustainable economic activities and, therefore, the “do no significant harm” principle does not apply to the ESG Funds’ investments. Consider the investment objectives of the Dimensional funds carefully before investing. For this and other information about the Dimensional funds, please read the prospectus, KID, and KIID carefully before investing. Information on sustainability related disclosures in the financial services sector (SFDR) pursuant to Regulation (EU) 2019/2088 in relation to the promoted fund is available at www.dimensional.com/SFDR.

Any references herein to “sustainable” or “sustainability” do not indicate that the ESG Funds commit to make sustainable investments within the meaning of the Sustainable Finance Disclosure Regulation (SFDR). The ESG Funds may promote environmental and/or social characteristics but do not commit to make sustainable investments.
